This is a really tiny panda, if you use the same yarn and crochet hook as I did. Super cute and a great gift on a present or as a key chain.

Haaktips voor amigurumi!

All the figures are crochet in a spiral (if not, it is mentioned in the pattern). If you want to have a nice shape off the amigurumi you have to crochet as tight as possible, so you do not see the fiber filling between the stiches.

I always use cotton yarn suitable for the 2,5 or 3mm crochet hook. But I crochet with a 2mm crochet hook or smaller.

The colors on my patterns are just an example. Choose your own colors to make your own amigurumi. That is why I do not mention the distributor off the yarn. Sometimes I want to give the amigurumi an extra twist (like fluffy hair), than I mention the yarn distributor. So you can achieve the same effect.
